M'ARTHUR'S DIVISION

Is Resting on Their Arms Before the Enemy.

PREPARING FOR AN ATTACK

The Warfare North of Manila Continues Under the Heat of a Tropical Sun—Latest Messages From General Otis.

Manila, March 28.—General MacArthur and his army are resting on the plain beyond Maricao, after three days' scrambling in the brush, fording rivers and charging trenches in the blazing sun. The men are tired, but are in splendid spirits.

On approaching Bulacan, a town of 25,000 people, he halted, preparatory to attacking it. The heat was intense, it being 90 degrees on the coast and fully 100 degrees in the interior. It made the Americans suffer a great deal. In spite of the heat, however, every man was eager to proceed towards the enemy.

The rebels have unloaded about 500 men from a train half mile in front of General MacArthur's forces, with the object of reinforcing the Filipino garrisons at Bulacan and Guiguinto, on either side of the railroad leading to Malolos.

The fact that the railroad is in operation from here to our front greatly facilitates the transportation of supplies to the troops. Before the break in the road was repaired, the transportation of supplies was very uncertain.

FILIPINO PRISONERS

Say Aguineldo Will Make His Last Stand at Malolos.

New York, March 28.—Dispatches from Manila report that General MacArthur's division, after a short rest in the captured city of Maricao, took up the advance from that place toward Malolos at 9:30 a. m. The immediately objective point was the town of Bocaue, five miles north of Maricao.

Filipino prisoners taken Monday have informed the Americans that Aguineldo would make a last grand stand at Malolos, and if he was defeated there, would make no further resistance, but quit the revolt.

Official Account of Monday's Battle.

Washington, March 28.—The following dispatch has been received from General Otis at Manila: MacArthur had severe fighting Monday afternoon beyond Maricao. Brilliant charge by South Dakota, led by Frost, against famed troops of Aguineldo brought from Malolos. Repulsed enemy with slaughter. Adjutant Lien and Lieutenants Adams and Morrison and four enlisted men of that regiment killed. Lieutenant McClelland and 22 enlisted men wounded; loss mostly confined to this regiment. Partial destruction of railroad, which is being rapidly repaired, impedes MacArthur's progress. Supply railway trains have now reached Maricao, and MacArthur is pushing on. Our small gunboats are in Bulacan river, where great execution was done. They will relieve pressure on MacArthur's front materially. Troops in excellent condition and spirits. Proclamation signed by Luna, general-in-chief insurgent forces, directs that all towns abandoned be burned. In consequence thereof, much country north is in flames.

Dispatch of Otis Explained.

Washington, March 28.—The Frost named in General Otis' dispatch is Captain A. S. Frost of the Twenty-second Infantry, now Colonel of the First South Dakota volunteers. The three officers killed in that regiment are Jonas H. Lien, first lieutenant and adjutant; First Lieutenant Frank H. Adams and Second Lieutenant Sydney E. Morrison. The officer wounded is First Lieutenant Paul D. McClelland. A dispatch from General Otis announces that the Third Infantry has taken the place of the Twenty-third Infantry, which was at the front. Two battalions of the Twenty-third were brigaded with the Oregon volunteers and have seen severe fighting. The Twenty-third has been recalled to Manila.

Situation at Hilo.

Washington, March 28.—Adjutant General Corbin has received the following dispatch from Manila, signed by General Otis, about the situation at Hilo: "All quiet there. Smith's additional troops received at Enrique with great show of gladness. The additional troops, Second Battalion California, sent to Colonel Smith to protect inhabitants from raids of hill robbers. Negroes developing internal government under Smith's supervision; reports very encouraging."

May Send More Troops.

Washington, March 28.—The war department is giving serious consideration to the advisability of sending a

regiment to the Philippines in addition to those en route and under orders. This command will probably be one of the artillery regiments now in the east. Three light batteries were given orders to proceed to Manila via San Francisco, E of the First artillery, F of the Fourth and F of the Fifth.

To Erect a Hospital.

Washington, March 28.—Under instructions from the department, Captain W. F. Robinson, Jr., assistant quartermaster, has purchased 60,000 pounds of galvanized corrugated iron roofing, to be shipped to Manila. The order for 400,000 feet of lumber has been increased to 600,000. The lumber and roofing will be used in erecting hospitals and barracks for troops.

TERRIBLE SUFFERING

Of Fishermen Caught in Ice Flies on Lake Erie.

Sandusky, O., March 28.—Five fishermen of this city, H. C. Payson and his three sons, James, John and Charles, and Louis Roberts, have reached their homes here after a most thrilling experience on Lake Erie.

They went out in a small sailboat to lift their nets, and were caught in a terrific storm, which carried away the spar of the boat and drove the ice down upon them, so that they were for nearly 20 hours drifting helplessly about in a heavy sea among crushing and grinding ice floes, and in a momentary danger of going to the bottom. They had a small rowboat in tow. Two of the men started for Marblehead life-saving station in it. They were finally forced ashore on Cedar Point after a terrible experience, and were almost dead from cold and exhaustion.

Subsequently the tug Silver Spray sighted the three men in the sailboat, and after hard work managed to reach them. The men were in a pitiable condition, being almost frozen and completely exhausted.

Decision on Election Laws.

Columbus, O., March 28.—By a decision of the supreme court, the election laws for Cleveland, Columbus, Cincinnati and Toledo will be effected after the spring election. The supreme court affirms the decision of the circuit court of Cuyahoga county, which limited the appointees of Mayor McKisson to Cleveland on the election board to the corporation only. Election boards for townships will now be selected under the old law.

New Incorporations.

Columbus, O., March 28.—The William Tod company, Youngstown, capital stock \$300,000; increase of the capital stock of the Ohio Building and Loan company, Columbus, from \$1,000,000 to \$5,000,000; increase of capital stock of the American Oak Leather company, Cincinnati, from \$1,000,000 to \$2,200,000; the Herman club, Cincinnati.

Five Steamers Seized.

Cleveland, March 28.—It is learned on pretty good authority that the American Steel and Wire company has secured control of the five steamers of the Zenith Transit company. They are all of the largest class, and the deal is one of the largest ever made on the Great Lakes. The five steamers are valued at upwards of \$1,000,000.

For Ohio Centennial.

Springfield, Ill., March 28.—The house passed the bill for the appointment of a commission of 11 members to arrange for an Illinois exhibit at the Toledo exhibition in commemoration of Ohio's admission into the Union.

A Game of Freeze Out.

Philadelphia, March 28.—Colonel John I. Rogers of the Philadelphia Baseball club said that he believed the action of the National league in changing the schedule as regards the Louisville club was the result of a conspiracy to freeze out the Louisville. The conspirators, in his opinion, had the additional object of forcing the league to support or buying out the Cleveland and Baltimore clubs, and possibly to buy out the Washington club. Colonel Rogers also stated that he was of the opinion that the Louisville club had no redress.

Trying to Save Guthrey.

Louisville, March 28.—Dr. W. Godfrey Hunter, United States minister to Guatemala, now in this city, is taking steps to save the life of Churchill Guthrey, an American under sentence of death in Honduras, for abducting. Guthrey was formerly a lawyer at Marshall, Mo. Secretary of State Hay has ordered the gunboat Machias to investigate, and the American consul to secure a stay of sentence.

Rochester, N. Y., March 28.—Health Commissioner Fritzsche, dealer in fides, reported to the board of health meeting that beef cut into small pieces for sausage meat is being shipped in barrels to Rochester from Chicago. At his suggestion, the meat inspector was directed to make rigid inspection of the condition of this chopped beef.

TESTIMONY OF DAVIS

In Reference to the Contracts For Furnishing Army Beef.

EAGAN'S MEMORY IN ERROR

Witness Says the Apparent Discrepancy as to Length of Time of Keeping Meat Was Due to Former's Forgetfulness.

Washington, March 28.—Captain George B. Davis, commissary of subsistence, was the first witness to appear before the beef inquiry court.

He was on duty in the office of the commissary general and assisted in preparing the Santiago beef contract with Swift & Company, dealing especially with the preparation of the clause covering the time the beef was to be kept in refrigerators on shore.

He had talked with General Eagan on this subject when the contract was in course of preparation, and had understood from him that the beef was to be kept in refrigerators for 72 hours after arrival, and 24 hours after its removal from them.

Captain Davis detailed some instances in which boards of survey had examined beef which had been complained of while in the refrigerator. One instance occurred at Manzanillo and another at Santiago. In the first, the beef was condemned, and in the latter a part of it was.

In reply to Major Lee, Captain Davis said the understanding in the commissary general's office was that the beef was to be kept good for 72 hours by the contractors after leaving the ship, provided good care was taken of it. "That," he said, "was the extreme limit, but it was not supposed that the beef would be kept for more than 24 hours."

Major Lee pointed out the apparent discrepancy in Captain Davis' and General Eagan's testimony as to the conditions under which beef was to be kept for 72 hours after the arrival of the beef at its point of destination. He read General Eagan's statement, saying it was his intention that the beef should be good for 72 hours "no difference where taken from," and saying that the 24-hour clause must be a clerical error.

He asked Captain Davis to reconcile the two statements, to which request the captain responded by saying: "General Eagan had simply forgotten. Probably he had not seen the contract for six months. It is not customary in such cases to depend upon the memory, the contracts being on file and reference to them convenient and usual."

The witness said there had been considerable discussion in the office of the commissary general of the feasibility of shipping beef on the hoof, but it had been decided not to try the experiment, because of the difficulty of getting ships for landing the cattle, and of taking care of them after landed. The subsistence department had, however, gone so far as to gather the names of persons who might desire to bid.

Edward Morris of the Chicago firm of Morris & Company was the next witness. He stated that his company had for the past 10 years been in the habit of storing canned roast beef in the Baltimore and Ohio warehouses on Staten Island for shipment to either foreign or domestic points. Some of this beef had, in 1898, been returned to Chicago. Most of the shipments to foreign ports had been sent to the English.

None of it had ever been sold to or rejected by a foreign government, and none had been sold abroad and condemned and sent back to the United States for the American troops. The goods returned to Chicago were sold to a wholesale grocery house, and by it sold to the government, 90 per cent going to Manila. The firm had sold to the government direct about \$150,000 worth of corned beef and of canned roast beef.

Louisville Baseball Troubles.

Louisville, Ky., March 28.—President Barney Dreyfus, of the Louisville baseball club, addressed a letter to the president of league baseball clubs setting forth the troubles of the Louisville management that have resulted from the change in the schedule depriving it of 11 Sunday games, six abroad and five at home, and asking them to take action to have the schedule changed. Mr. Dreyfus claims that at the first meeting of the league a schedule was agreed upon and practically adopted, and that it being understood there was to be no change the Louisville club was not represented at the last meeting at which the schedule was revised.

Commons Adjourns.

London, March 28.—The house of commons adjourned until April 19.

FOUGHT LIKE DEMONS.

Indians Refuse to Obey Government Regulations For Holding Elections.

Cornwall, Ont., March 28.—The Indians of the St. Regis and and Cornwall Island reserves have refused to obey government regulations for holding elections for five chiefs for a period of two years.

They desire to return to the old custom of electing their own chiefs, 12 in number, for life. In August last the Indians refused to allow the election to proceed.

Monday another attempt was made to hold an election under government authority. Indian Agent Long, Inspector Hogan and Officer Chamberlain, with assistants, arrived here, but were refused admittance to the building where the election was being held. The police were assaulted, Long was secured and locked up, and the police were driven away. Inspector Hogan returned to Ottawa to report. One-third of the Indians, the inspector says, were from the American reserve at Hogsburg, N. Y. The tribe became infuriated, and, with visions of the warpath before them, they fought like demons.

Samoa Orders Examined.

Berlin, March 28.—A correspondent here has obtained the following explanation of a feature of the Samoan question which has lately arisen. On the report that the American government had cabled to its admiral at Samoa to act in accordance with the decision of two of the three representatives of the powers, the German government made earnest representation to the American ambassador here, Andrew D. White, that the Berlin treaty requires the concurrence of the three powers, and called attention to the dangers which were sure to arise if there was anything like a violation of the treaty. The American government made a frank and conciliatory answer, which has caused much satisfaction here. It recognized the necessity for unanimity upon the part of all three powers under the treaty as a condition of any settled policy or permanent action, and declared the admiral was only authorized to act in agreement with a majority of the reports of the powers in a case of emergency which absolutely does not admit of delay.

Tragic Death of Mr. Casin.

San Francisco, March 28.—A letter from Guatemala, dated March 11, says: "Mr. Casin, a friend of Ezeta, the de-throned monarch of Salvador, walked over the cliff a few days since near the port of Acajutla, and was dashed to pieces on the rocks below. Nobody believes that the act was suicidal, though he declined to take food for a couple of days prior to the occurrence. It will be remembered that Casin made a fortune in Salvador variously estimated at from \$500,000 to \$1,000,000. Heshared Ezeta's exile, and participated in the expense of a sloop on which Antonio Ezeta and he sailed for California a couple of years ago. Ezeta died in Panama in poverty, and the same fate overtook Mr. Casin."

A Pittsburg Man Involved.

Charleston, S. C., March 28.—The grand jury, which is trying to solve the mystery surrounding the death of Thomas Pinckney, who was killed several weeks ago, supposedly by footpads, will bring in a presentment this week calculated to cause the biggest sensation known in this city in years. The latest sensation has been caused by the efforts of the grand jury to learn further facts about Benjamin C. Batwell of Pittsburg, who it is alleged is engaged to Miss Elizabeth Bardin, the young lady on whom Pinckney was calling the night he was shot.

Sound Money League.

New York, March 28.—The annual meeting of the central council of the National Sound Money league convened in this city. J. Sterling Morton of Nebraska presided. Eighteen vice presidents of the league, who in part constitute the central council, were present. General Secretary E. V. Smalley submitted his report. The report by A. B. Hepburn of New York was next read. Mr. Hepburn stated that the receipts of the league during the last year had been \$12,300, and the expenses \$4,300.

Reed's Will With Indifference.

Santiago, Chili, March 28.—The verdict of Mr. William Buchanan, United States minister to Argentina and arbitrator in the Punta de Atacama division question of Chili and Argentina, which was announced on March 21, has been received here with indifference. The award gives Chili 2,000 leagues, which represents about one-fourth of the whole territory of Punta de Atacama.

Washington, March 28.—The detachment of 250 marines to be sent to Cavite will be transported on the army transport Newport about April 10. They will be accompanied by 15 officers, besides several officers and men who are under orders to join Otis.

BARONESS DE ROQUES

Makes a Statement About Case of Her Imprisoned Daughter.

HAS NOT ABANDONED HER.

Denial of Story That Mrs. Maybrick's Friends Have Desisted in Their Efforts to Secure an Alleviation of Sentence.

London, March 28.—The statement published in the United States that the Baroness de Roques has abandoned her efforts to obtain the release of her daughter, Mrs. Florence Maybrick, now undergoing a sentence of imprisonment for life for poisoning her husband, and that the baroness is now endeavoring to have Mrs. Maybrick transferred to a convent, as has been done with two English women prisoners, is not correct.

In response to an inquiry on the subject, the baroness wrote as follows: "I have not abandoned my efforts for her release or pardon. I wished, however, to draw attention to the manner in which other prisoners are treated and alleviated. When I think that if any one on earth deserves alleviation and consideration, it is this doubly unfortunate American I have, in despair and grief, at the condition in which I find her, felt like any mother would, that almost anything which could be ever so slight a change and alleviation in her surroundings would perhaps keep her in life, from which in my eyes she is surely slipping."

"I am told she has no fatal chronic disease, such as the rules require, for her release to die outside. I have, however, thought that if English women and their sentences can be alleviated, my unfortunate American girl might be returned to her own country to pass the balance of the period, which the English authorities consider the necessary punishment for an unproven attempt."

OPPOSITION CONSOLIDATE.

The Anti-Quay Members Cast Their Votes For Congressman Dalzell.

Harrisburg, March 28.—The first important break in the balloting for United States senator took place when all the anti-Quay Republicans deserted "favorite sons" and cast their ballots solidly for Congressman John Dalzell of Pittsburg. The ballot, the sixtieth of the session, resulted: Quay (R.), 87; Jenks (D.), 69; Dalzell (R.), 51. Total votes cast, 207; necessary to a choice, 104; absent and not voting, 46. The Quay followers claim that the action of the anti will benefit the senator, but the anti deny this, and say there will be no desertions from their ranks.

Conditions of Underground Railway.

New York, March 28.—The Metropolitan Street Railway company has submitted to the board of rapid transit commissioners a proposal to build the underground railroad system upon the route and plans adopted by the commission. The Metropolitan company stipulates, however, that it shall acquire the franchises in perpetuity, a corporate privilege which the city charter does not allow. The offer of the street railway company provides also that no greater compensation shall be paid to the city than a rental of 5 per cent upon the gross receipts of the operation of the road.

Bulgaria at Plymouth.

Plymouth, England, March 28.—The Hamburg-American line steamer Bulgaria, which left New York on Jan. 28 for Hamburg, arrived in distress at St. Michaels, Azore Islands, on Feb. 24, repaired there temporarily and left on March 23 for her home port, arrived here. The mayor of Plymouth and the townsmen presented Captain Schmidt with a congratulatory address. The Bulgaria will proceed to Hamburg, and it is announced Emperor William has decided to send the band of the cuirassiers to meet the steamer there.

Medill's Will Probated.

Chicago, March 28.—The will of the late Joseph Medill, editor of the Tribune, was admitted to probate. His stock in the Tribune is left to Robert W. Patterson, Robert S. McCormick (his sons-in-law) and William G. Beal, as trustees for his two daughters, and is to be voted as a whole. The value of the estate is not stated, as it will take two or three weeks to prepare the inventory.

Washington, March 28.—General Otis cabled as follows from Manila: "Prince Loewenstein, with Wheaton's command, morning 26th, took refreshments to officers Second Oregon, on firing line. Was cautioned as to danger, but advanced with line when it charged insurgent intrenchments. He was killed by enemy, and a friend with him wounded. His remains delivered to friends in city."

OWNED BY THE STATE.

Georgia Has a Railroad and It Has Paid Her Big Money.

[Exchange.]

The State of Georgia owns a railroad. It is the Western and Atlantic, which extends in almost a straight line from Atlanta to Chattanooga, Tenn. In 1890 the road was leased to the Nashville, Chattanooga and St. Louis Railway Company for \$420,012 a year, or \$35,001 a month, for a period of thirty years.

Georgia's ownership of the railroad dates from December 24, 1836, when the General Assembly provided for the survey and construction of a railroad from the point where Atlanta now stands to some point on the Tennessee river. A few years before that the South Carolina and Georgia railroad had been completed from Charleston, S. C., to Augusta, and this fact created in the minds of the leading public men of the State the hope for the advancement of the commonwealth along the lines of transportation facilities. By 1847 the road was in operation from Terminus (now Atlanta) to Dalton, a distance of 100 miles, and the following year it was completed, the northwestern terminus being where the city of Chattanooga now stands, a distance of 138 miles. The total cost was

\$4,441,532, or \$32,185.01 per mile, which was raised by taxation and the sale of bonds, the money being appropriated from time to time as the work progressed.

In the first year of its existence the road was operated directly by the State, through officials named by a State Superintendent, who was in turn appointed by the Governor. Politics necessarily played some part in the selection of the Superintendent and minor officials, but as little as might have been expected under the circumstances. Up to 1855 the property was a burden to the State, the road failing to produce sufficient revenue for its support, and in that year the late ex-Senator Joseph E. Brown and ex-Senator Benjamin H. Hill made a spirited canvass for the Governorship, the question at issue being the sale or the lease of the State road. The former championed the operation of the road by the State and won. The first year of his administration witnessed a thorough reorganization of the management and the application of business methods in operation. The result was that at the end of the year, after paying off all liabilities, a balance of \$43,500 was paid into the treasury.

From that time to the end of the Civil war the history of the road was one of unbroken progress. Regularly a net balance of \$300,000 was realized and the receipts during Brown's administration went as high as \$450,000—considerably over 10 per cent. on the money invested. It paid over half the revenues required for the support of the State Government under normal conditions, and even during the war was a source of great financial strength to the State.

During the reconstruction period the property was used for political purposes and was allowed to run down. A popular clamor arose for the sale of the road. Ex-Governor Brown again opposed this proposition and stated that with the proper management it was worth to the State \$25,000 per month. Finally, as a result of this agitation, in 1870 the Legislature authorized the lease of the property for a term of twenty years at not less than the amount named—\$25,000 monthly. Mr. Brown, then Justice of the Supreme Court, resigned his office, secured the lease and operated the road successfully until 1890, paying the stipulated rental regularly, and amassed a colossal fortune besides. Upon the expiration of his lease the property passed into the control of its present operators.

"TAKE care of the pennies and the pounds will take care of themselves." Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make. Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, some day, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs.

FOR THE FARMER.

Stock Sales Will be Resumed in Maysville Next Court Day—Coal Oil For Burning Tobacco Beds.

The stock sales at Ripley Saturday were largely attended and bidding was active. Tom Thompson's stable reports sales of thirty-two head of horses at an average of \$73 each. While this is not a fancy price, it is an advance of 40 per cent. over a year back.

The farmers in Hopkins County are using coal oil to burn plant beds. They use it with or without wood. They clean the ground, loosen it up, soak it with oil and set it on fire. They say it burns more regularly and in one-tenth the time required with wood.

The stock sales in Maysville will be resumed next County Court day, Monday, April 10th. The sales will be held at Second and Limestone. Bring your stock and meet the horse and cattle buyers from far and near. Remember, these stock sales are to be held second Monday in each month, beginning at 10 o'clock a. m.

REV. IRL HICKS, in his forecasts for March said: "The Vulcan storm period, 26th to 30th, will, in all probability, bring forcible reminders that the conquests of the Sun are not yet complete in the North end of our world. The probabilities are that very marked storm conditions will develop about the 25th, moon being on the equator, and during the 26th, 27th, 28th and 29th heavy rain and thunder storms will travel eastward, with indications good for heavy snow and March blizzards in the North and West. March will end in all probability with fair weather prevailing generally, a very high barometer and frosty weather for the season."

Do You Enjoy a Hearty Laugh?

The young character actor, J. C. Lewis, supported by his big company of talented comedians in the laughing success "Si Plunkard," will be the attraction at the opera house to-morrow night. The play deals with rural New England and some of the more vicious aspects of city life. The comedy is in four acts, two of which takes place on Si's farm, near Fairview, Conn., and the others in New York City, where the rural representative meets with some wonderful adventures. Mr. J. C. Lewis appears in the character of the traditional downeaster, Si Plunkard, whose chief reason for being is to serve as a foil to the conventional villain. The action of the play admits of a number of novel and pleasing specialties by a company of comedians, presenting a program of mirth, music and novelties constructed to drive away dull care. The past season the comedy has been rewritten and will present new features. Remember the date, to-morrow night.

The Contemplated Retirement From a Long Business Career.

D. HECHINGER, nominally Hechinger & Co., are going to retire from business. In plain words are going to SELLOUT.

Fortunately for the people, this step was not contemplated until after their entire Spring stock (not less than \$40,000 worth) was purchased and is in their house.

It is needless to say a word about the class of goods that will be thrown on the market. It is a patent fact, not only in our midst, but in the commercial world, that few merchants buy the uniformly high class of goods that Hechinger & Co. have always bought.

The Retirement Sale Will Begin April 1st.

It will take until then to arrange our stock for the sale.

Every article in the house will be sold at net cost—no more nor less.

Our readers will most assuredly take advantage of this sale.

It's a Rare Occurrence

that a stock of Clothing, Men's furnishings and Men's and Boys' Footwear of such high character are thrown into a forced sale.

RIVER NEWS.

Traffic Arrangements Between Two Big Companies Continued For Another Year—The Pittsburg Coming.

The City of Pittsburg left Pittsburg Tuesday afternoon.

Keystone State due down this evening and Stanley to-night. Nisbet up for Pomeroy and Avalon for Charleston.

The Maysville Produce Company shipped nearly 700 cases of eggs last night on the Queen City for Pittsburg.

River rose about two feet here last night. There will be a big rise in next few days if the rains this week extended to headwaters.

The Pittsburg Commercial-Gazette says there is a rumor afloat that Captain Mack Gamble is negotiating for the purchase of the Kanawha from Bay Bros.

Gallipolis Tribune: "The Pittsburg and Cincinnati Packet Company has entered into an agreement for one year more with the White Collar Line, whereby they will not carry any freight between Syracuse and Cincinnati. This agreement has been in effect for the past five years. It is said that according to law these boats could be compelled to carry any freight offered them, as they are under the laws a common carrier. The Pittsburg Packet Company will enter the Hudson in the Pittsburg and Cincinnati trade this spring. Captain Robert Exner tells us the old Hudson is the best built steamboat in the line, when it comes to substantiability. The Virginia being new and heavier built than the Queen City is considered the best steamer for all purposes owned by the company. We are told that the Pittsburg and Cincinnati Packet Company is contemplating another fine boat, but that she will not be any larger, if as large, as the Virginia. The Keystone State has been the best money maker in the line."

COL. HENRY WATTERSON.

The Brilliant Editor and Eloquent Orator to Lecture Here on "Lincoln," April 25th.

Col. Henry Waterson, the brilliant writer and eloquent speaker, will deliver his lecture on "Lincoln" at the new opera house Tuesday evening, April 25. Through Mr. Charles D. Pearce's influence the management of the opera house have been able to make special arrangements with Colonel Waterson for this lecture.

Col. Waterson has a national reputation, not only as a writer, but also as a lecturer. He has never been heard in Maysville, and will no doubt be greeted by a very large audience on the evening of April 25th.

PULLEY FACTORIES.

A Movement Said to Be on Foot to Consolidate the Leading Companies in This Country.

MISHAWAKA, IND., March 27.—President Melville W. Mix, of the Dodge Manufacturing Company, returned Sunday from Chicago, where had been taken the initial steps in the direction of consolidating the interests of the pulley manufacturers of the United States.

The new combine had its inception at the Grand Pacific Hotel, and the companies invited into the proposed trust are: Reeves Pulley Company, Columbus, Ind.; Keasey Pulley Company, Toledo, O.; Dodge Manufacturing Company, Mishawaka; Menasha Pulley Company, Menasha, Wis.; Saginaw Manufacturing Company, Saginaw, Mich.; Ohio Valley Pulley Company, Maysville, Ky.; Buckeye Pulley Company, Marion, O., and the Fulton Pulley Company, Fulton, N. Y.

The Reeves and Saginaw Companies are reputed to be prime movers in the proposed combination.

When interviewed this morning Mr. Mix admitted that steps had been taken to form an organization of American pulley manufacturers, but declined to state to what extent affairs had progressed.

Early sown wheat is looking well, while the late sown presents a less favorable prospect.

Mumps are still prevailing and are no respecter of age. Richard C. Williams, aged fifty, is a late victim.

Mr. Trimble, the new postmaster at Bernard, has opened a store in connection therewith. Success to him.

Dave Stewart, of Brown County, is spending a few days with his old friends and relatives of this neighborhood.

Miss Marie Emral goes to Cincinnati soon to accept a position with her brother, Martin, who has gone into business in the Queen City.

Henry Williams received a ward from the Lon-

sville Orphan Home Friday evening in the person of a bright little boy, twelve years of age.

The violent and frequent wind during the season makes one think that old Kentucky is aspiring to rival her sister Kansas in Western airs.

Mrs. John Power, who was so unfortunate as to have a limb broken several weeks ago, improves slowly, being yet not able to leave her couch.

Master Dick Dawson Fisher, while practicing his blood-hounds recently, was slightly bitten through the finger by one of the blood-thirsty animals.

The chilly weather, ranging in temperature the past week between 30 and 40, has a tendency toward repressing the advance of the fruit buds and a prospect for fruit is still retained.

Mrs. Mary Dimmitt has recovered sufficiently from her recent severe illness to enjoy a delightful visit, in company with her sister, Mrs. Vancuey, at the pleasant home of her sister, Mrs. Huchinger, of Maysville, a few days ago. The friends of Mrs. Dimmitt rejoice at her recovery, as at one time her life was almost despaired of, and every detail of her condition was anxiously awaited.

Howard, Frank and Charley Williams were in attendance at the burial of their cousin, Ulysses Pelham Degman, Friday, near Springdale, whose death occurred at the family residence Wednesday, at the age of twenty years and thirteen days, of tuberculosis of the throat. He contracted the disease while at school at Louisville 18 or 20 months ago, being compelled to relinquish his studies and return to his home. From the fatal malady he was a constant sufferer until the hour of his death. Efficient medical aid by Dr. Bowman and the untiring efforts of his surviving parents, brothers and sisters and relatives proved to be of no avail, except to alleviate somewhat his suffering, his kind and devoted mother scarcely leaving his bedside during his confinement, often having her meals served in his room. Deceased was a young man of exceptional qualities, possessing a bright intellect, a kind and affectionate disposition, and was a general favorite with his many friends and acquaintances. He had been a member of the Christian Church for several years. Truly his case verifies the old adage that "the good die young." A void is left in the hearts of his friends that is hard to fill. He bore his suffering without a murmur and was perfectly resigned, often expressing a desire to depart this life that he might join his beloved grandmother and little sister Ruth, whose death a few years ago had been the only serious grief his young life had ever known. Religious services conducted at the residence Friday at 2 o'clock by Rev. White, of Toltessboro, were earnest and impressive. The "sickle whose name is Death" not only reaps the bearded grain but the flowers that grow between. The remains were followed to their last resting place by a large number of relatives and friends and in-

terred in the Bethany cemetery, where also a large number had gathered, attesting by their presence the high esteem in which deceased was held; and while the beautiful casket containing the precious remains were being gently and tenderly lowered to their last resting place by the grief-stricken pall-bearers, Gracey and Julius Degman, brothers of the deceased, and Wm. Henry Tully, Arthur Toile, Howard and Frank Williams, cousins of the deceased, the solemnity of the sad occasion was made sadder if possible by the mournful wail of the first cool of the turtle dove in the distant woodland. Beautiful flowers were placed on the new-made grave by loving friends. Friends in this neighborhood join in extending sympathy to the bereaved parents.

Again the hand of grim Death appalling, Grips a loved one from this world of strife, Just as the evening shades were falling, Ending a day of mortal life.

Now with angels is this dear one Who from our life has flown, Leaving hours so grieved and saddened And a home so still and lone.

Loved ones tried so hard to keep him, Filled every want with loving care, Vain were sleepless nights and tireless labor, A soft low whisper says, "Not here, not here," But on to the spirit-world above us, Pure and spotless as the snow, Where no sin can ever enter, Where there is no sorrow, pain or woe."

Then, why weep we for these loved ones, As we feel the pain, the sting Of that last, sad, fearful parting, Which death's chill will ever bring? And while around their graves we love to linger Thinking of the low-laid form we once loved to cherish, The now cold lips we loved to kiss, And the now cold hands we loved to grasp;

"Tis then we smile with joy and gladness, For their gentle spirit has surely flown To a purer, grander realm of brightness— For does not God ever claim his own? And may we remember the one sweet comfort, 'Tis the promise that is given, Then death is but a precious solace That opens the way to heaven.

FARMERS, READ THIS!

We have placed our order for two car-loads of WOVEN WIRE FENCE, which will arrive in a few days. This Fence will be in three heights—28, 34 and 41 inches.

This is the Very Best Field Fence

on the market. We have bought it at a price that will make it cheaper than you can afford to buy the wire and build your fence. We would advise you to place your order before it goes higher.
